Subject: Oregon CZARA Legal Discussions Scheduled for June 10 & 17

All,

The program staff team has developed a schedule for moving forward on Oregon CZARA and have decided that it makes the most sense to discuss some of the outstanding legal questions around Oregon's most recent CNPCP submittal (and certain outside comments) in early and mid-June. The program staff is meeting weekly on Tuesdays beginning June 10 @ 2-3PM EDT; 11AM-noon PDT, so the legal team should look for invitations to join the program team discussions on June 10th & June 17th.

For June 10, we will be discussing issues around OSDS (septic systems) and Urban-New Development. The main issues for both of these management measures hinge around resolving legal questions first posed to the legal team on April 25 (and with various legal staff again more recently). I am including them below and suggesting that members of the legal team may wish to discuss them among themselves in advance of June 10, so they can hopefully speak with one voice for the June 10th discussion.

For June 17, we will be discussing legal questions around the Additional Management Measures for Oregon. Look for an email from Allison Castellan to tee up these issues (...or re-tee up, as the case may be for a couple of the legal Qs).

Thanks!
